**Duties/Abilities:** Assist the Director in ensuring that Emergency Medical services provided by Central Queensland Health Service District at Rockhampton Hospital and surrounding areas are of the highest standard and delivered in an efficient and effective manner given available resources. The temporary positions available represent an exciting opportunity for either new or experienced specialists to work within a regional centre for a fixed period of time. These fixed term vacancies (up to three years) would work well either as an introduction to specialist clinical practice or as an opportunity for a senior clinician to share experiences from a metropolitan or teaching hospital background. The successful applicants will work alongside other FACEMs and SMOs in delivering high quality clinical care and in developing new clinical processes appropriate for the local population.
